CONTENT: **Properties of Metals and Non-Metals**
SKILLS: **Comparing the properties of some metal and some non-metal objects**

NEW WORDS:

| | | | |
|---|---|---|---|
| **Metals** | **Non-Metals** | **Properties** | **Observations** |
| **Lustre/Lustrous** | **Ductile** | **Conduct** | **Magnetic** |
| **Rust** | **Corrosion** | **Tarnish** | |

**SECTION A – Questions and Answers** **/ 4**

1. Explain the meaning of the word "Property" in 2 full sentences. /2

Properties are the things that are special about an abject or a material.

A quality or a feature of a material that never changes.

The properties of a material tell us what it is like.

2. How can we tell if something is made of metal? ( List 4 special properties of metals) /2

Objects that are made of metal are shiny, hard, conductive, malleable, cold to the touch, any suitable answer.

PAGE TOTAL:

BEDFORDVIEW PRIMARY

**SECTION B – Tabulate** /4

**Complete the table by filling in the opposite property.** 4÷2=2

| **Metals** | **Non-Metals** |
|---|---|
| Strong | Weak – Brittle- Fragile |
| Conducts heat | Does not conduct heat |
| Lustre | Dull |
| Solid | Solid, Liquid and Gas at room temperature |

- **Give 2 Examples of metals and non-metals in the space provided.** 4÷2=2

**Examples may not be any of the objects from this test.**

| 2 Examples of metals: | 2 Examples of non-metals: |
|---|---|
| (Any correct metal objects) | (Any correct non-metal objects) |

**SECTION C –** /6

**Organise the following objects into the correct categories** 6÷2 =3

- Rubber gloves
-Magnet
-Copper
- Ceramic mug
- Iron pot
- Woven basket

| **Metals** | **Non-Metals** |
|---|---|
| Magnet | Rubber gloves |
| Copper | Ceramic mug |
| Iron pot | Woven basket |

**Name one use for each object below:** /3

1. Ceramic Mug- To drink out of, for mixing
2. Woven basket- To carry items in, decoration, laundry.
3. Copper- To make electrical wires

**SECTION D – Definitions** /6

**Match the term in column A with the correct definition in column B.**

BEDFORDVIEW PRIMARY
